1. Grant Overview

1.1. Background

- 1.1.1. In 2024, the Oasis Institute received a second five-year cooperative agreement from the U.S. Administration for Community Living/Administration on Aging (ACL/AoA) to implement the Volunteer Community Care Corps. This program, *Community Care Corps*, is administered by Oasis in cooperation with USAging and Caregiver Action Network (referred to as “Administrators” in this Request for Proposals) with Altarum, a nonprofit research and consulting organization, providing program evaluation and consultation to the Administrators.
- 1.1.2. This is the 2024 Request for Proposals (RFP) cycle under the second five-year federal cooperative agreement.
- 1.1.3. Through an independent review committee and a competitive grant-award process, the Administrators will distribute funds to foster the development, expansion and refinement of innovative volunteer nonmedical assistance models which support older adults, people with disabilities age 18 and older, and their family caregivers. This initiative will increase the number of community-based volunteer programs available to provide nonmedical assistance while decreasing the number of older adults, persons with disabilities age 18 and older, and family caregivers who need assistance in maintaining independence in the community but are unable to obtain help.
- 1.1.4. The Administrators will evaluate the effectiveness of those models in different communities nationally and work with grantees to identify Effective Elements, those conceptual approaches used in model development and implementation that improve outcomes, reduce barriers and are replicable. These effective elements will be compiled into the Community Care Corps Learning Library so individuals and organizations across the country may use them to develop, implement and right size a local model for their community.

1.2. Request for Proposals

- 1.2.1. The Administrators are seeking proposals for innovative local models in which volunteers assist family caregivers or directly assist older adults or persons with disabilities age 18 and older with nonmedical care in order to maintain their independence.
- 1.2.2. Funds are awarded to local organizations across the country to develop, expand or refine volunteer models in home or community-based settings which provide only nonmedical assistance to support older adults, persons with disabilities age 18 and older and family caregiver.
- 1.2.3. Administrators seek proposals incorporating the following focus areas in its nonmedical volunteer assistance local model:
 - 1.2.3.1. Leverages the opportunities and principles within the 2022 National Strategy to Support Family Caregivers;
 - 1.2.3.2. Supports grandparent and kinship-led households;
 - 1.2.3.3. Expands and refines models for program implementation including off the shelf materials;

- 1.2.3.4. Utilizes college interns as volunteers;
- 1.2.3.5. Expands remote, virtual, and low tech program implementation opportunities;
- 1.2.3.6. Screens and trains volunteer chaperones to accompany older adults and persons with disabilities age 18 and older in need to and from non-emergency medical appointments and outpatient procedures. Volunteer chaperone models must:
 - 1.2.3.6.1. Deliver services door through door;
 - 1.2.3.6.2. Assist with needs pre- and post- appointments;
 - 1.2.3.6.3. Include appropriate stakeholders;
 - 1.2.3.6.4. Address care recipient expectations and needs before and after non-emergency medical appointments and outpatient procedures.
- 1.2.3.7. Utilizes volunteers for program administration and operation as opportunities for professional skills building;
- 1.2.3.8. Increases access to respite programs to all caregivers;
- 1.2.3.9. Provides bystander and safe spaces training for volunteers and families (provided by Community Care Corps);
- 1.2.3.10. Provides Person-Centered Approaches training to volunteers and staff (provided by Community Care Corps).
- 1.2.4. The Administrators understand and appreciate the distinct phases of program implementation and are seeking applications in these specific stages:
 - 1.2.4.1. Model Development includes the creation and launch of your local model:
 - 1.2.4.1.1. Identifying an unmet community need;
 - 1.2.4.1.2. Designing a new local model to meet that unmet need;
 - 1.2.4.1.3. Developing the model's infrastructure;
 - 1.2.4.1.4. Identifying and establishing relationships with community partners;
 - 1.2.4.1.5. Piloting your local model in your community.
 - 1.2.4.2. Model Expansion includes growing and scaling your local model to reach more people:
 - 1.2.4.2.1. Introducing new types of volunteer nonmedical assistance;
 - 1.2.4.2.2. Adding new targeted audiences;
 - 1.2.4.2.3. Expanding the model's geographic reach;
 - 1.2.4.2.4. Expanding collaborations and partnerships.
 - 1.2.4.3. Model Refinement includes improving and optimizing your local models existing elements:
 - 1.2.4.3.1. Improving your local model's quality, efficiency, effectiveness and engagement;
 - 1.2.4.3.2. Utilizing lessons learned and feedback from participants and volunteers to better meet the needs of the community;

- 1.2.4.3.3. Adjusting strategies to improve outcomes and overall impact.
- 1.2.5. Applicants who have not previously been funded, past and current grantees are eligible to submit applications. Continuation grants are not allowed.
- 1.2.6. The Administrators will only commit to fund applicants for one grant period of 18 months.
- 1.2.7. Currently, federal funds are not secured beyond one funding cycle. Therefore, applicants should consider this a single cycle grant.
- 1.2.8. Grantees should provide plans for sustainability beyond the 18-month grant period.

Applicants are encouraged to consider health equity and social determinants of health. Innovation for one organization might not be considered innovation for another.

4. Funding

4.1. Award Amounts

- 4.1.1. The Administrators will award 18-month grants ranging in size from **\$30,000 to \$200,000** to applicants who are developing, expanding or refining a local model per section 1.2.4.
- 4.1.2. This RFP process will be competitive. **Not all applications will receive funding, and those that do receive funding may not receive the full amount requested.**
- 4.1.3. This funding opportunity operates as a reimbursement grant. Selected grantees will be eligible for reimbursement of incurred expenses on a quarterly basis only. Grantees must submit a Quarterly Financial Report (to be provided) and invoice to receive reimbursement for eligible costs.
- 4.1.4. Selected grantees will have the option to request a 10% early disbursement of their requested federal funding amount at the start of the grant cycle.

4.2. Grant Period

- 4.2.1. The grant period will be for 18 months.
 - 4.2.1.1. Proposed local models do not have to be new projects to an organization. However, funding must be used to develop, expand

or refine your local model, see section 1.2.4. Funds must be used to supplement, not supplant, funding that would otherwise be available for volunteer activities.

4.2.1.2. Successful applicants will be allowed to use up to six months at the start of the grant period for program development.

4.3. Match Requirements

4.3.1. All grantees are required to contribute a **minimum match equal to 25% of the total program budget. Total Program Budget = Federal Funds Requested + Match. The match may be comprised of cash, in-kind contributions, or a combination of both.** For example, an organization applying for a grant of \$120,000 will be expected to contribute a \$40,000 match, bringing the total program budget to \$160,000. Calculate minimum match as follows:

Federal Funds Requested / 3 = Minimum Match Amount. Applicants who do not use this calculation to determine match will not be moved forward for consideration. The budget form and budget narrative also contain the formula to assist in determining the minimum 25% match requirement.

4.3.2. Matching resources take on the characteristics of the Administrators and federal funds and are therefore subject to the same rules regarding their use.

4.3.3. Grantees are responsible for raising minimum matches.

4.3.4. All proposals must detail the sources of their proposed match. Possible sources of match may include, but are not limited to:

4.3.4.1. In-kind contributions:

4.3.4.1.1. Volunteered time;

4.3.4.1.2. Use of facilities to hold meetings.

4.3.4.2. Program fees or other earned revenue from the applicant organization's budget;

4.3.4.3. State government grants;

4.3.4.4. Local government grants;

4.3.4.5. Foundation grants/contributions;

4.3.4.6. Corporate grants/contributions;

4.3.4.7. Individual contributions;

4.3.4.8. Other contributions.

4.3.5. The following sources **cannot** be used toward the match:

4.3.5.1. Federal funds;

4.3.5.2. Funds used to match other grants.

Expectations and Compliance

5.1. Expectations

5.1.1. Implementation is defined as progress toward program launch and does not necessarily mean service delivery.

5.1.2.2. Monthly calls with the Administrators' Community Care Corps

 - 5.1.7.1. Grantees participating in social media promotion must include #communitycarecorps in all posts and notify Community Care Corps of social media postings to be boosted;
 - 5.1.7.2. Grantees that do not participate in social media promotion are required to provide content to Community Care Corps to post on its social media accounts on the grantee’s behalf.
- 5.2. Reporting Requirements

All grantees are required to submit the following reports in electronic format using reporting instruments that will be provided:

 - 5.2.1. Quarterly Budget and Spending Report (utilizing the form provided);

 - 5.2.7. End of program narrative summary at the end of quarter 6 (utilizing the

format provided).

5.3. Evaluation Efforts

- 5.3.1. An important aim of Community Care Corps is to evaluate the effectiveness of local models by collecting conceptual approaches that improve outcomes, reduce barriers and are replicable. The concepts, effective elements, housed in a web-based tool, informed by the successes, challenges and missteps of former Community Care Corps grantees, will enable other organizations to create impactful local models tailored to their community.
- 5.3.2. Grantees will be required to collect and report **at least 12 months** of data that aids in evaluation. Applicants may utilize up to 6 months of the available 18 months at the start of the grant cycle to build needed infrastructure.
- 5.3.3. Grantees will be required to report certain output data (see section 5.2.) within the grantee portal such as: number of older adults assisted; number of persons with disabilities age 18 and older assisted; number of family caregivers assisted; number of volunteers providing assistance; number of hours of volunteer nonmedical assistance provided and number of occurrences of each type of volunteer nonmedical assistance provided.
- 5.3.4. Grantees will be required to distribute a survey (see section 5.2.) to be filled out by individual family caregivers, older adults, and persons with disabilities age 18 and older receiving volunteer assistance (utilizing the forms provided).
 - 5.3.4.1. These surveys will capture self-reported data on the following outcome measures: caregiver stress and care recipient unmet need, loneliness, social isolation, perceived ability to continue living independently in the community, and assessment of person-centeredness of volunteer services. In addition, the following outcome measures, specific to volunteers, will include volunteer motivations, intent to continue volunteering, perceived benefits of volunteering, and knowledge and utilization of person-centered care practices.
 - 5.3.4.2. The data collected from these surveys is owned by the Administration for Community Living and will be accessed and analyzed by Altarum, a third-party evaluator. All grantees will have access to the aggregated data collected by their organization at the end of the grant period.

5.4. ACL Compliance

- 5.4.1. This grant program is funded by the Administrators through a cooperative agreement between the U.S. Administration for Community Living/Administration on Aging and Oasis Institute. The statutory authority for grants is contained in Title IV of the [Older Americans Act](#) (OAA) (42 U.S.C. 3030), as amended by the Older Americans Act Amendments of 2016, P.L. 114-144 (Catalog of Federal Domestic Assistance 93.048, Special Programs for the Aging Title IV and Title II Discretionary Projects).

5.4.2. The funds that will be awarded in response to this RFP will include federal funds. The applicants will need to agree to commit to the terms and conditions for receiving federal funds from the Administrators (which may change or be updated by the federal government during the program period). Awardees will be subject to the general provisions of [45 CFR Part 75](#).

5.5. Unique Entity ID and SAM Registration

5.5.1. Applicants must register to do business with the U.S. Federal Government by completing a registration process in the Federal System for Award Management, SAM.gov. As a part of that SAM.gov registration process, applicants will obtain a Unique Entity ID (formerly a Data Universal Numbering System (DUNS) number). If you are already registered in SAM.gov, then you have already been assigned a Unique Entity ID and it is viewable in your SAM.gov entity registration record. Proof of registration, including your entity's Unique Entity ID, must be supplied to the Administrators before funds are disbursed. Registration in SAM.gov and obtaining a Unique Entity ID is time consuming. As registration may take up to one month, it is recommended to begin that process now. If you have not already registered in SAM.gov, please click on this link, [SAM.gov](#), to complete your registration.

6. Review Process and Criteria

6.1. Review Process

6.1.1. The Administrators will convene an independent Review Committee to review applications. The committee is comprised of professionals with knowledge of family caregiving, aging services, disability services, volunteer programs, program planning and evaluation, and organizational capacity building.

6.1.1.1. The Review Committee will make funding recommendations based on application scores.

6.1.2. Final award decisions will be made by the Administrators. The Administrators will make final decisions based on proposal scores, innovation, inclusion of the focus areas listed in section 1.2.3., diversity of organization type, diversity of organization size, target population(s), diversity of population served, geographic region, and type of volunteer assistance provided to create a diverse pool of grantees required to meet the overall goals of the Community Care Corps program.
